DURAPLEX

GREAT SOUND
GREAT STRENGTH

PG. 9

Exotic

19 EXOTIC MATERIALS

PG. 21-22

www.steveclayton.com • questions@steveclayton.com

Strength is key to the ultimate performance. The composition of this pick gives you just enough stiffness to give you those killer power chords, but has just enough give so that you're not busting strings left and right.

Plus, Acetal has a matte surface that prevents it from moving or slipping in-between your fingers.

Available in 3 shapes: Rounded Triangle, Standard, and Small Teardrop
Available in 8 gauges: .38mm, .50mm, .63mm, .80mm, 1.00mm, 1.26mm, 1.52mm, and 1.90mm
Packaging options: 12 packs, 72 packs, and a Starter Display

THERE'S NOTHING ELSE LIKE IT!

ACETAL SHARP

Get an extra edge on Clayton's renowned Acetal picks, now available in sharp shapes! These sharp edges will allow you to get a killer attack on your strings! Great for speed picking and fast riffs.

Available in 3 shapes: Sharp Triangle, Sharp Standards, Sharp Teardrop
Available in 8 gauges: .38mm, .50mm, .63mm, .80mm, 1.00mm, 1.26mm, 1.52mm, and 1.90mm.
Packaging options: 12 packs

hexpick

Get some control...

... over your pick with Hexpick! The hexagon hole in the pick locks the pick in place, but still allows you to move the pick if needed. This unique design is extremely comfortable and will help keep your playing at its best. This pick is made of Duraplex material and is built to last.

Available in Standard: .50mm, .60mm, .73mm, .88mm, 1.00mm, and 1.14mm.

HEX

ULTEM Gold

Resembles tortoiseshell!

Ultem is remarkable for creating crisp clean tones on even the dullest of strings. This pick is made of the highest grade material to ensure your guitar produces the cleanest, brightest tone available. This pick closely resembles the true sound of actual tortoiseshell that is so widely desired. However, it will not fracture like tortoiseshell and is one of the strongest picks on the market.

Available in 3 shapes: Rounded Triangle, Standard, and Small Teardrop
Available in 8 gauges: .38mm, .45mm, .56mm, .72mm, .80mm, .94mm, 1.07mm, and 1.20mm
Packaging options: 12 packs, 48 packs, and a Starter Display

FLEX ACETAL

Flex Acetal is uniquely engineered for the ultimate guitar experience. Made of Acetal, it produces a warm tone with exceptional wear characteristics. Flex Acetal was engineered to bridge the gap between having a pick with no flex and a pick with flex. The result is a stiff pick with enhanced flexibility and exceptional gripping capabilities.

Available in 1 shape: Standard
Available in 4 gauges: .60mm, .73mm, .88mm and 1.00mm
Packaging options: 6 packs

Black Raven

SOMETHING TO RAVE ABOUT

This pick has been specially formulated to reduce that annoying string pop. Plus, it has a matte surface that allows you to hang on to your pick without any unwanted slippage.

Available in 3 shapes: Rounded Triangle, Standard, and Small Teardrop
Available in 6 gauges: .38mm, .50mm, .63mm, .80mm, 1.00mm and 1.26mm
Packaging options: 12 packs, 72 packs, and a Starter Display

Matte surface

DURAPLEX

What sets Duraplex apart from others is that we use the highest form of Delrin material to resist notching and give ultimate strength. Also, our edges are polished, so there are no annoying tabs to get in your way!

Available in 3 shapes: Rounded Triangle, Standard, and Small Teardrop
Available in 6 gauges: .50mm, .60mm, .73mm, .88mm, 1.00mm, and 1.14mm
Packaging options: 12 packs, 72 packs, and a Starter Display

TENACIOUS D IN THE PICK OF DESTINY

Above: Jack Black stars as "JB" in New Line Cinema's comedy Tenacious D in: THE PICK OF DESTINY.
Photo ©2005 Zade Rosenthal/New Line Productions

Comedians/musicians Jack Black (KING KONG, SCHOOL OF ROCK) and Kyle Gass (ELF) bring their infamous rock duo Tenacious D to the big screen in the comedy Tenacious D in: The Pick of Destiny. The film tells the story of "The D's" quest for the Pick Of Destiny and how they became the self-proclaimed greatest band on Earth.

Clayton, Inc. is proud to have created a line of Pick of Destiny inspired products, for the ultimate "D" worthy experience.

Above: (left to right) Kyle Gass stars as "KG" and Jack Black stars as "JB" in New Line Cinema's comedy Tenacious D in: THE PICK OF DESTINY.

THE GREATEST BAND ON EARTH

FUNCTIONAL PICK NECKLACE

Look great wearing it, sound even better playing it. This official functional guitar pick necklace comes straight to you from The Greatest Motion Picture of All Time- "Tenacious D in: The Pick of Destiny".

FUNCTIONAL REPLICA GUITAR PICK

Now you can have your very own official functional replica of the Pick of Destiny! Just like in the movie, this pick will help you become the ultimate rock star. This unique pick has 3 different edges to play with and is made of Delrin for ultimate strength.

Available in 3 gauges:
Thin, Medium and Heavy

REPLICA GUITAR PICK

NEW LINE CINEMA
A Time Warner Company

Trademark of Robotron 500, Inc. (s.06) All Rights Reserved.

LED LIGHT UP NECKLACE

This necklace is a replica of the Pick of Destiny necklace worn by Jack Black in the movie. It has a beaded leather string and an on/off switch to make it glow.

You too can now have your very own exact replica of the Pick of Destiny from the hilarious movie.
A great collectable for any Tenacious D fan!

SPIKE

Spike will have you licking your chops at how satisfying this pick is. Its sharp edges will allow you to get that killer attack with all of your speed riffs. Made of Ultem for ultimate strength.

Available in 3 shapes: Sharp Triangle, Sharp Standard, and Sharp Teardrop
Available in 3 gauges: .56mm, .72mm, and .80mm
Packaging options: 12 packs

GET A NEW EDGE

PHAT-TONE

Phat-Tone was designed to provide bass players the feel and tone your fingers produce. It is a dual durometer (hardness) guitar pick having a soft outer rubber with a ridged inner core. The rubber replicates your skin, while the ridged inner core provides a fast response and punchy tone. Although Small Teardrop is too small for use with a Bass, it works great for Ukulele playing.

Available in 3 shapes: Rounded Triangle, Standard, and Small Teardrop
Available in 1 gauge: 2.80mm
Packaging options: 3 packs

DESIGNED SPECIFICALLY FOR BASS PLAYERS

Clayton

CLAYTON PREMIUM

NuTone
Premium Series

NuTone was created to mimic the extraordinary sound of authentic tortoise-shell. Its unique composition produces a punchy bass with clear treble tones, making it a perfect pick for acoustic play. Its natural lubrication releases off your strings quickly and gives you the ability to produce articulate tones. Made from polymerizing an animal protein, it is much the same as the famed, but endangered, Hawksbill Sea Turtle's shell. NuTone Protein Picks replicate the sound and feel of the Hawksbill's shell with its natural protein components, but no animals are harmed in any way by its production.

Available in 3 gauges: Medium, Heavy, Extra Heavy
Available in 1 shape: Standard
Packaging: 1 pick per pack in a random assortment of colors

ZZ-Zinc
Premium Series

ZZ-Zinc picks are crafted out of genuine Zinc alloy metal. Their heavy mass and metal composition will produce tones that are both clear and high, as well as a punchy bass with unprecedented volume. They play well for both electric, acoustic, and bass guitar applications. Their matte finish and reversed embedded epoxy logo helps to generate a solid grip between the pick and your fingers. The ZZ-Zinc pick is designed to last and give you years of trouble-free playing.

Available in 2 gauges: 1.00mm and 2.00mm
Available in 1 shape: Standard
Packaging: 1 pick per pack

Perfect for acoustic play.

Designed to last.

METALLICS

Metallics Copper: Copper creates an impressive sharp tone while playing. Copper, being a softer material, will not wear down the coating of phosphor bronze or Nickel found on your guitar strings. Each pick is tumbled extra long to ensure the edges are consistently round for faster release from your strings. As this is a metal guitar pick, we recommend your guitar surface has a pickguard.

Metallics Stainless Steel: Stainless steel will last a lifetime and never corrode. It makes for an incredibly hard guitar pick and provides a clear, bright tone. Each pick is tumbled extra long to ensure the edges are consistently round. Rounded edges help to minimize the string wear. As this is a metal guitar pick, we recommend your guitar surface has a pickguard.

Metallics Brass: Brass picks create a vivid, bright, and clear tone. These incredibly stiff, durable picks will last through the toughest play. If you are looking for a pick to create smoking pick slides, then these fit the bill. Each pick is tumbled extra long to ensure the edges are consistently round for faster release from your strings. As this is a metal guitar pick, we recommend your guitar surface has a pickguard.

Available in 1 Shape : Standard
Available in 1 Gauge : Medium
Packaging : 3 picks per pack

INCREDIBLE TONES

Exotic

Sleek Horn: These ultra-sleek horn guitar picks make for a bright and durable guitar pick. We have specially selected a very hard horn so that it can be made into a thinner gauge for more universal play. The tips are also sharpened for lead guitar playing, and it's natural lubricant has a fast response off of your strings.

Sleek Bone: Bone picks produce a warm tone and are long-lasting! We have specially selected a very hard bone so that it can be made into a thinner gauge for more universal play. The tips are also sharpened for lead guitar playing.

Bone Jazz: Bone jazz picks are both long-lasting and warm in sound. Bone Jazz features a small shape with a pointed tip for increased attack and fast response.

Black Horn Jazz: Black horn jazz picks create a bright, clear sounding tone. Black Horn Jazz features a small shape with a pointed tip for increased attack and fast response.

Blond Wood: This beautiful blond wood creates a surprisingly exquisite rich tone. It is great for jamming with when you need a nice rhythm bass sound, as it elimates any brassy tones.

Coconut: Coconut Shell is a durable and bright organic material that you are sure to want to add to your guitar pick collection. It creates increased volume during play and has very tough and dense properties. Each pick is hand-made with a smooth polish on one side and an indented, roughened grip on the other side.

Teak Wood: This amazing organic material will leave you shocked at the warm tone it creates. It has a natural wood grain going vertically down the pick helping tone better flow from your strings while simultaneously adding strength to the pick. It has tapered edges that allow for a swift release from your strings.

Horn: This natural horn material is shockingly bright and durable. It has a beautiful transparent look of brown and amber. It also has beautiful contoured edges and a polished surface that is extremely fast off of your strings

Padauk: Padauk picks create a warm, loud and earthy tone off of your strings. The wood grain runs vertically down each pick to ensure strength and durability during play.

Wenge Wood: Wenge wood is a beautiful wood featuring black stripes against a rich brown background. Wedge wood creates a strikingly bright sound against your strings. Each pick is handmade to ensure all edges are smoothed to perfection.

Packaging : 3 picks per pack

19 EXOTIC MATERIALS

Only at Steve Clayton!

Leaf Wenge: This beautiful pick is hand-made out of wenge wood and showcases rich, dark stripes on a brown background. A leaf pattern has been carved into each pick to add an incredible grip to this unique pick.

Leaf Padauk: These beautiful red, earthy-toned picks will leave you amazed with their impressive tone and grip. A leaf pattern has been carved into each pick to add an incredible grip to this unique pick.

Leaf Blond: This beautiful blond wood creates a surprisingly exquisite rich tone. It is great for jamming when you need a nice rhythm bass sound, as it eliminates any brassy tones. A leaf pattern has been carved into each pick to create an intense grip.

Alaia Blond: Our alaia picks will amaze you with their beauty. Each pick has 3 different kinds of wood pieced together to create a beautiful striped pattern. The multiple woods come together to create a harmonious tone. Contains maple, padauk, and teak woods.

Alaia Brown: Our alaia picks will amaze you with their beauty. Each pick has 3 different kinds of wood pieced together to create a beautiful striped pattern. Contains teak, mapple, and padauk woods.

Alaia Black: Our alaia picks will amaze you with their beauty. Each pick has 3 different kinds of wood pieced together to create a beautiful striped pattern. Contains ebony, maple, and padauk woods.

Packaging : 3 picks per pack

GRAPHIC

BeeHold

BeeHold the power of control at your fingertips. This unique design is comfortable to play with and allows you to move the pick where needed, but locks it in place. No more red and painful fingertips to keep your pick in place.

Available in 1 shape: Standard
Available in 3 gauges: .50mm, .80mm, 1.00mm
Packaging options: 6 packs, 36 packs

SandShark

The revolutionary "Sand Shark" puts a sandy grip right where you need it. This gripping design has the sand just where the shape of the shark is, allowing you to really choke up on the pick for intense playing power.

Available in 1 shape: Standard
Available in 6 gauges: .38mm, .50mm, .63mm, .80mm, 1.00mm, 1.26mm
Packaging options: 6 packs, 36 packs, Starter Display

PickTAC

PickTac is the perfect solution to your pick gripping troubles. Just peel one side of the clear acetate and stick the adhesive dot to your favorite pick. Then peel off the other side of the adhesive. You will instantly have a grip that will not move or shift that you can stick in your ideal location of the pick. As your hand heats, the PickTac will start to mold to your finger for a customized grip. If you need to remove PickTac, just pull up on the PickTac, and it will cleanly remove. PickTac allows you to easily reposition your fingers as needed and leaves no messy residue on your pick or your fingers. You'll find it to be truly PickTacular.

Packaging options: 50 pcs. per pack

See Clayton endorsed artist artist ARay using Clayton Picktac to hold the pick firmly in his hand as he goes seamlessly from strumming to a two-handed tapping technique on his guitar. Simply amazing!

"...Using PICKTAC to hold firm the pick on my thumb, or this technique at this speed would simply not work." – ARay
(www.aray.binhoster.com)

ECO-PICK

Rock responsibly!

Now you can rock with a good sounding pick & be responsible to the earth while you do it! Eco-Picks™ are an earth-friendly product made of a unique agricultural (non-petroleum) based polymer that is made utilizing renewable energy. Eco picks are made of a plastic that is certified compostable (BPI Certified to ASTM D6400). Also the ink used to print on the pick is developed to contain raw materials made from renewable resources rather than from fossil fuels.

Available in 1 shape: Standard
Available in 1 gauge: Medium
Packaging options: 12 packs

GARAGE Band PICKS

Have you ever wanted to jam and your friend doesn't have a pick, or a pick they really like? Well we have a solution for you! Each box of Garage Band picks contains over 100 mixed picks. Inside you will find all kinds of different gauges, colors, and shapes. Anyone is sure to find a pick that they'll love. The picks are all made out of some of the highest quality materials on the market today.

Packaging options: 1 box of 100 mixed picks

MAKE SURE NO ONE IN YOUR BAND EVER GOES PICKLESS AGAIN!

BUFF & ZIP

PRO BUFF

14" x 18" Large Polish Cloth, sewn on all four sides, 100% cotton and machine washable.

STRING *Zip*

This greaseless cloth acts like a magnet to dust and lint that builds up between your string bindings.

Clayton SLIDES

American Hottie

Expanding from our American Hottie Picks, we now offer the vintage style designs of Garry Palm on a quality crafted Porcelain slide. Porcelain exhibits a high resonance and is considerably stronger and harder than ceramic slides. In addition it gives you a high biting attack that is sure to impress. The American Hottie Slides come in three sizes with an ultra-absorbent interior to absorb finger moisture.

Available in 3 sizes: Small, Medium, Large

Glass

Socket

The Clayton Socket Slide has turned what musicians have known for decades into a reality. Sockets have been known to make great guitar slides due to their 12 star interior gripping. We have enhanced the traditional socket by extending the length and opening up the other end. This slide locks onto your finger, giving you more control and comfort during play. Made of heavy chrome.

Brass Socket

Musicians have long been known to use actual tool sockets for playing because the 12 star interior grip keeps the slide locked on your finger. Tool sockets have a drawback though; they are too heavy on one end. Clayton corrected this feature by equalizing the weight on each end, which allows for consistent balance, weight, and tone. To enhance the slide even more, Clayton has made it in brass for enhanced quality and sustainability of tone. A cut-out relief has also been added for additional comfort during play. Truly a superb piece of craftsmanship.

All Available in 3 sizes:
Small, Medium and Large

PORCELAIN, GLASS, BRASS, & CERAMIC

The traditional Clayton glass slides are available in 3 sizes and two thicknesses. Each comes with a protective case to protect your slide from breakage. Each slide comes with a "Bottleneck Slide Technique" instruction sheet, so that you can get the most out of your slide.

Available in 3 sizes: Small, Medium, Large
Available in 2 thicknesses: Standard or Heavy Wall

Brass

Brass creates some of the most amazing harmonic tones. This beautiful slide is polished to perfection.

CAPO

Clayton Lever-Lock CAPO

Looking for the perfect capo? We have just what you need. This traditional lever capo design is fully adjustable without any chance of slippage. When open it will not fall off your guitar and can be moved up the neck and repositioned quickly. It is made of a reinforced glass fibre material that can work with both curved and flat necks. With its plastic composition it has less chance of scratching and scuffing your guitars.

SLIDES

Pork Knuckle

UNMATCHED IN SUSTAINABILITY AND VOLUME!

The Pork Knuckle ceramic guitar slide is unmatched in sustainability and volume. This ultra smooth slide produces playing quality found nowhere else. Unlike other porcelain/ceramic slides, there are no uneven surfaces effecting tone. Inside is a unique inner ribbing that allows air to circulate, providing a comfortable fit with added grip. With this design you will no longer experience your fingers getting too hot, sweaty or slippery. Prepare to be amazed during your next solo performance.

Available in 3 sizes: Small, Medium and Large

STRAPS

AVAILABLE IN 6 COLORS!

INNER-LOCK Strap

Finally, a simple strap lock! Simply place the guitar button into the hidden hole on the bottom side and pull forward. The end tab will then lock into the secondary front hole. Once in the forward slot, it is trapped. Each strap is 2" woven material, with edge sewn leather end tabs. Sewn to meet airline safety standards for unparalleled strength. No metal components to dent or scratch your guitar. Fully Adjustable.

Available in the following colors: Blue, White, Yellow, Red, Black, Gray

Clayton CLASSIC

Sure to lighten the load on your shoulder, these high quality straps are made of thick, heavy genuine leather. No expense has been spared here! Straps are adjustable with thongs on the end for headstock fastening.

Available in two colors: Black, Dark Brown
Available in two width sizes: 2.5", 3.5"

Why Choose Clayton Custom?

48 hour Turn-around

We have been doing custom imprinting for so long (25 years) that we have the whole process down to a quick and efficient science. Most of our competitors take anywhere from 4-8 weeks to produce custom picks, plus they hold on to your money while they spend all that time making the picks! Ordering custom guitar picks is very exciting, and we don't want you to have to wait for weeks to get them. We pride ourselves on being able to provide custom guitar picks faster than any competitor!

Great Prices

Our prices start at only $24.99 for 30 picks! Plus, we won't charge you a set up fee. Nothing is spared when it comes to a quality guitar pick that is both promotional and practical.

Quality Materials

We provide only the highest quality pick materials currently available on the market. We want your pick to play as good as it looks. You can be assured with Clayton, Inc. that you are always getting top of the line material.

Fully Trained Staff

Our fully trained staff can assist you with any questions you may have concerning custom imprinting. Their dedication and experience is what separates us from the competition. From the warehouse to sales, to the credit department and officers, many of them have several years of experience with the company.
